

会议介绍

推进丝绸之路经济带和 21 世纪海上丝绸之路建设，是党中央、国务院根据全球形势深刻变化、统筹国内国际两个大局作出的重大战略决策，具有划时代的重大战略意义。随着“一带一路”国际合作高峰论坛的举办，宣告“一带一路”倡议进入了全面推进的关键节点。

《推动共建丝绸之路经济带和 21 世纪海上丝绸之路的愿景与行动》指出：沿线国家宜加强信息互换、监管互认、执法互助的海关合作，以及检验检疫、认证认可、标准计量、统计信息等方面的双多边合作，推动世界贸易组织《贸易便利化协定》生效和实施。

“一带一路”，既是文明、文化的“一带一路”，更是经济、贸易的“一带一路”，经济贸易的交流和繁荣，离不开“一带一路”上各个国家和地区对质量的认同。“一带一路”最重要的一点，就是通过高质量产品的贸易交易，最终实现“一带一路”上所有人民生活质量的提升。标准、计量、检验检测、认证认可可是国际公认的国家质量技术基础。从世界通行做法来看，国家质量技术基础既是政府发挥监管职能的技术支撑，也是实施国际贸易政策的重要内容。

鉴于当前“一带一路”形成大区域大合作发展格局的需要，迫切需要建立检验检测、标准、认证认可制度的区域化互认模式和合作交流平台，为“一带一路”倡议提供科技服务支撑，举办国家质量基础合作（天宁）论坛恰逢其时。

“天宁论坛”立足“一带一路”国家和地区，面向全世界，为政府、企业、专家、学者及非政府组织提供一个关于标准、检验检测、认证产业发展等问题的对话、交流、协调与合作平台。

Tianning Forum on National Quality Infrastructure 2017

Building Silk Road Economic Belt and 21st-Century Maritime Silk Road is a significant strategic decision made by the Central Committee of the Party and the State Council judging on the global profound changes according to situations both at home and abroad. It has the epoch-making strategic significance. The Belt and Road Forum for International Cooperation indicates that the proposal has entered into the critical step of full promotion.

Vision and proposed actions outlined on jointly building on Building Silk Road Economic Belt and 21st-Century Maritime Silk Road points out that countries along the Belt and Road should enhance customs cooperation such as information exchange, mutual recognition of regulations, and mutual assistance in law enforcement; improve bilateral and multilateral cooperation in the fields of inspection and quarantine, certification and accreditation, standard measurement, and statistical information; and work to ensure that the WTO Trade Facilitation Agreement takes effect and is implemented.

One Belt and Road Initiative is not only referring to civilization and culture but also economy and trade. Exchanges and prosperity in economy and trade cannot be achieved without mutual recognition on quality by countries and regions along the Belt and Road. It is of significance that people from countries and regions along the Belt and Road to improve their lives by trading products of high quality. Standard measurement, inspection and testing, certification and accreditation are national quality and technology infrastructure acknowledged in the world. From the international practice, national quality and technology infrastructure provides not only technical support for governments to supervise, but also important content to implement international trade policy.

In view of the requirement of development with extensive regions and profound cooperation, it is urgent to establish a platform for cooperation and communication by mutual recognition in regions. The platform refers to fields on inspection and testing, standard, certification and accreditation. To provide One Belt and Road Initiative with technical support, it is at the right time to hold the forum.

The Forum, based on countries and regions along the Belt and Road, facing to the world, provides governments, business, experts, scholars and NGOs with a platform on standards, inspection and testing, certification development and other issues for dialogues, exchanges, coordination and cooperation.
